

Special Attention

The following special attention signs are for you and others to prevent any injuries or damages.

Warning : Possible for user to receive a serious injury.

Caution / Prohibition : Possible for user to receive a minor injury or cause damage to things.

Signs : Warning / Caution / Prohibition

Please make sure that there is no snapping off or shorting in the wire. It is possible for the wire to snap off or short after long use. May not be able to fish if you snap off the wire. Shorting of the wire will cause the wiring of the boat to burn and damage the battery or start a fire.

Caution Please do not put heavy things on the power cord.

Caution Please hold the clamp section when you take out a cord from the power source. (Battery, etc.)

Caution Please take out the cord from the reel immediately when it does not work or when there is no indication on the display even after you connect it. If you leave the reel as it is, may cause damage or burn the motor.

Finger Injury Level winder Guide
Please do not allow your fingers to come near Level Winder, doing so may cause injury to your fingers.

Spinning Please do not touch the spool while it is spinning. You may be injured.

Caution Please do not use the reel for any other purpose than for fishing.

Breakable Please do not disassemble or attempt to remodel the reel in any way.

Caution Please hold the plug head when pull out the cord from the reel.

Caution Please do not remodel the power cord.

Caution Please be careful not to put your fingers between the spool and the line. Doing so may cut your fingers.

Caution Please do not touch the fishing line when the line is going out at high speed. The line could cut your fingers.

High Temp Please do not touch the motor housing after using the reel for a long time, it may be very hot.

Water Damage please do not soak the reel in water for no more than 30 seconds. It may cause water damage.
