

# The Pioneer of Electric and Electronic Fishing Reels Since 1967

Miya Epoch made the first electric fishing reel over 48 years ago, and no company in the world has more experience in research, design, development and production in this area. Today, we applied our knowledge to develop the most sophisticated reel with new types.

# The Most Powerful Handheld Computerized Fishing Reels with The World's First Automatic Tension Control (A.T.C.)

## Product Description

It is so powerful that you can bring in a 1000 lbs. fish in no time. The newly developed automatic tension control system works perfectly well with your catch to keep the drag in right tension so the fish has less chance to break the line or unhook. Another great feature is the quick spool releasing lever. This one touch spool releasing lever releases the line quickly back in action, but still keeps the same previous drag tension.

US-50

US-50 (24V)

Max. Winding Speed : 110m/min.  
Max. Hoisting Power : 130kg (286lbs.)

CZ-30

CZ-30 (24V)

Max. Winding Speed : 120m/min.  
Max. Hoisting Power : 120kg (264lbs.)

## Product Description

A newly developed CZ-30 is perfect for fishing tougher and larger fish. The heavy duty gear and well constructed body can withstand long hours of fishing. An Auto tension control (A.T.C.) system and full Command system will help you reduce time and energy during fighting. When you are tired, you can set fishing tension and let A.T.C. take over. The Miya Epoch CZ-30 has a new A.T.C. system that can play and fight fish for you. Great reel for professional and commercial use.
